

MAXXstak SD

Cast Aluminum Leveling Kit

[Part # SMX-10320]

All NEW from SuspensionMAXX: The MAXXstak Super Duty 2 .5 inch 4X4 Front Leveling Kit. Built "Ford Tough" to last a lifetime from solid aluminum alloy, MAXXstak SD kits are indestructible! Cast to Suspension MAXX's exacting standards. No cracking, No sagging, No rust, just a built-proof suspension leveling lift kit that does the job and won't break the bank. Suspension MAXX leveling kits come complete with all the necessary hardware to complete the installation, and install quickly and easily when using the appropriate tools.

Suspension MAXX advanced leveling products work hard and play tough! If your 2005-up 4 wheel drive coil spring equipped Ford Super Duty F-250, F350, F450, or F550 begs for extra clearance for bigger tires, extra height for rough terrain, and bolstered support for heavy front accessories Suspension MAXX Leveling Systems are just the answer! Still the best part is that Suspension MAXX products offer these benefits with virtually no loss of ride quality or degradation of handling!

Suspension MAXX MAXXstak SD Levels the 2005 up 4 wheel drive coil spring equipped Ford Super Duty F-250's and F350's including power stroke diesel engine models as well as the F series 450 / F550 chassis. Suspension MAXX Increase Truck Attitude for a fraction of the cost of a complex lift kit!
