## Heavy Duty Sway Bar End Links

[Part # SMX-1224S,1224\*,1225\*,1226\*,1227\*]

\*Add suffix 'L' to part number for Leveled/Lifted Vehicles

**New from Suspension MAXX:** Maxx Link Heavy Duty Sway Bar End Links for full-size straight axle 4x4 Dodge Ram pick-ups from 1994-2010. Links for 2WD models are also available. Maxx Link sway bar links are the extremely durable and cost efficient solution to the Dodge truck's notorious reputation for chewing up OEM ball-in-socket style end links. Made from a combination of high grade steel and corrosion-resistant components, the Maxx Link end link system utilizes simple, effective design in conjunction with sturdy, robust parts to achieve outstanding performance and long-lasting results. Available for Stock, Leveled /Lifted Trucks.

No more changing your Dodge's sway bar links every fifty thousand miles. Suspension MAXX, Maxx Links are engineering to work hard and built tough to last long! Perfectly suited as a high-quality replacement piece or as a preventative maintenance measure for hard working Rams, now Dodge owners can 'grab life by the horns' with one less suspension piece to worry about thanks to the innovative experts at Suspension MAXX! Available for Stock, Leveled /Lifted Trucks. Backed with a lifetime warranty!
