

Suspension MAXX New Products! 2011 GM Heavy-Duty Trucks

New from Suspension MAXX: NEW MAXXCAM "3" from SuspensionMAXX: The multi-position "ADJUSTABLE " MAXXCAM "3" for all the all NEW 2011 Silverado / GMC Sierra HD Capable of delivering up to 2.5 inches lift or drop with no degradation in handling or ride quality; they're the sturdy, simple solution to ride height woes often approached with expensive and complex lift kits. Investment cast to exacting standards, and constructed solely from 4140 heat-treated alloy steel, Maxx Cam 3's strength and durability exceed that of even the toughest one-piece OEM torsion bar lever! And when combined with the NEW job-specific Suspension MAXX SUPER-T-MAXX "2" Torsion bar unloader tool, Maxx Cam 3 Leveling Kits are even quick to install! Perfect for all truck-owners in need of a practical suspension solution,

Each MAXX Cam 3 kit Includes:

- * Heavy Duty MAXX Cam 3 Torsion Bar Levers
- * Automotive Grade Fasteners
- * Aluminum Differential Spacers
- * Shock Relocation Kit
- * Full Instructions

Note: 2011 SUPER T-MAXX "2" Torsion Bar Unloader Tool required for installation.
